The Summer News Letter

Dear Friends,

As we transfer from spring into glorious summer we want to keep you updated as to how things are going at Actwell.

As mentioned in our spring newsletter Vibe has progressed from the medicinal flavour it once had into a truly great tasting berry flavour. Everyone who is taking it from us is raving about how good the new taste is and we are transferring completely into Vibe Fruit Sensation from June 2011. Worry not apart from the taste nothing has changed with Vibe. It is still the best multi vitamin on the market, still giving you more than your 5 a day (actually with Vibe you get about 12 a day).

The doctors who joined in the spring are settling in to their roles, and have more and more referrals, with customers getting support they need more quickly than is possible from the NHS.

The management team have been working hard to push all our costs as low as possible by meeting with our suppliers and service providers. The great news is that as we achieve the unthinkable in these times of constant prices rises we are pushing all the savings back to our customers. In the last 12 months we have reduced a bottle of Vibe by almost 25% and the other products in our portfolio have also been dropping. Our worry was that people would stop looking after themselves and Vibe isn't a bonus but a must if you want to keep pushing yourself to your limits.

In the last quarter we have also started stocking and supplying the sports products that also help you push further with your day to day training. We have brought on line ATP, Power Pulse, Athletic Edge, Q Plus and Vascular Advantage. VA is a great way to take that next step forward by cleaning your arteries and veins from the constant build up and allowing your blood to flow free. Also remember VA has an extra advantage as it works as a natural Viagra so 2 for the price of 1.

Also for all those out there who are looking for extra energy, but don't like the carbonated caffeine packed drinks that are available every where. try the new **UltraShots**. This comes in a easy use sachet that is ready to drink when you want it, and is also easy to carry. It has a maximum 30 calories per sachet, so those of you

trying to reduce your weight “no problems” and will give you an instant 4-6 hours of boosted energy to allow you to work or play without fading.

Finally we would like to direct you all to our website that has been under reconstruction for the past few months and is almost completed. You will see products are easier to find under the new headings and we have also incorporated our affiliates section. If you want to sell the products to other people sign up as an affiliate get a commission on everything you sell and have your own web page to work from. For more information about this call the office for details.

The final change we have made is to start selling the mixer packs. These come in either mixer 3 or mixer 4.

The Mixer 3 is a box of 21 sachets; 7 of each Vibe, Strawberry Slim (with it cholesterol reducing action) and UltraShot. The means you can get all the Vitamins and Minerals you require on a daily basis, whilst watching your weight and cholesterol, but still having that excess energy to enjoy the evening after work.

The Mixer 4 is as the Mixer 3 but also includes 7 sachets of Flex our arthritis and joint support product. It works to reduce the aches and pains in the joints and gives you enhanced movability.

Well it only leaves us to wish you a happy summer, enjoy any vacation you may take and if you are off on your holidays don't forget your travelling sachets.

Have a great summer from all at Actwell - the people who want you to stay healthy.
